

CAMP MOLLY

BE PREPARED

TO BE CHALLENGED
TO BE EMPOWERED

TO **CHANGE** THE WAY YOU SEE YOURSELF

OUR STORY

Camp Molly is a free, 4-day camp dedicated to inspiring young female and non-binary youth aged 15 to 18 by showcasing firefighting as a viable and rewarding career. Honoring Molly Williams, North America's first known female and first known black firefighter, the program was launched in 2019 in the Halton Region with substantial support from charities and businesses. Its success has led to expansion across Canada, including Quebec, Saskatchewan, and two Indigenous camps in 2024. The program offers comprehensive training in fire suppression, auto extrication, firefighter survival, and more. With around 35 campers per session, over 400 youths will benefit each year, each concluding with a ceremonial graduation.

ACTIVITIES

Throughout camp, attendees learn about the many branches of the fire service including :

FIRE SUPPRESSION

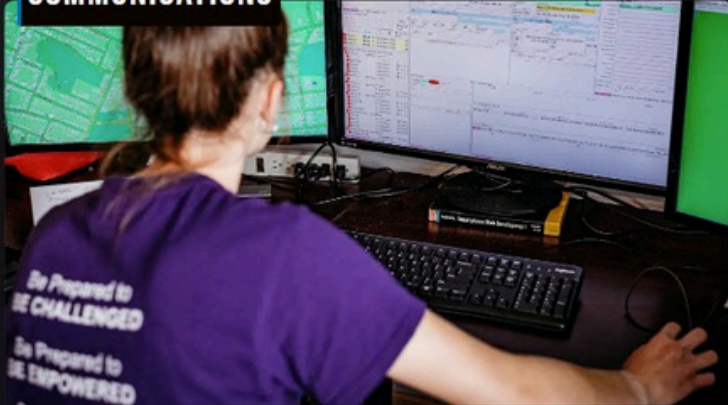

The campers will work as a team to advance hose into a smoked out structure.

AUTO EXTRICATION

Using the Jaws of Life the campers will learn about the different types of tools and how to take a car apart.

COMMUNICATIONS

Campers will have the opportunity to explore one of the backbone sectors of the fire service.

FIRE PREVENTION

Education is Step 1 and campers will learn about the many precautions to be taken to prevent potential fires

Camp Dates:
August 14-17 2025

Registration Opens
April 1st 2025

FIRE INVESTIGATIONS

For those that have a passion for Science and are driven to find out the why and how behind a fire, the fire investigation evolution will 'spark' their interest.

PUBLIC EDUCATION

Camp Molly participants have the opportunity to learn about delivering public education messaging.

MEDIA RELATIONS

One of the key messages in the Camp Molly motto is highlighted here as the campers learn to 'see themselves differently' and gain confidence in self when working on scene.

MEDICAL

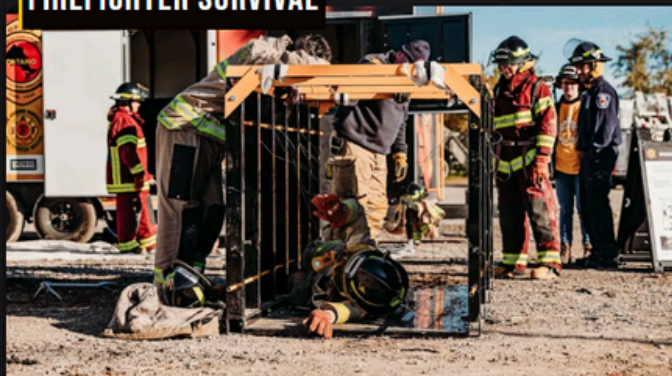

The campers learn the basics of CPR and using an AED as well as how to stabilize a patient and prepare them for transport.

FORCIBLE ENTRY

Here the campers learn about mechanical advantage and break down barriers and bust through doors proving to themselves and others that they are unstoppable.

FIREFIGHTER SURVIVAL

Be prepared to be challenged but know that you will be supported every step of the way!

CLARENCE-ROCKLAND, ON
